

In order to improve the quality of the educational process among students, teachers who take part in the training program at the undergraduate level are evaluated. The results of the head count and evaluation conducted among students are presented on the website and are publicly available.

The purpose of this procedure is to provide students with the opportunity to express their opinion about the quality of the educational process, which is provided at the faculty. Evaluation of teachers by students is carried out according to a number of parameters, including teaching skills, the content of the course, the ability to communicate, both with individual students and with the group as a whole.

The evaluation, in the future, will allow the university administration to take rational steps aimed at improving the quality of education. On the part of the students, this procedure was met satisfactorily. The students expressed their hope that such an initiative would continue in the future.

In general, the evaluation process is seen as a positive step towards improving the quality of the study process. In addition, teaching staff can also improve teaching methods and approaches based on feedback received from evaluation.
